
Trafix 2000 Water Filled Pedestrian Barrier - Orange

Product Images

Short Description

Orange Trafix 2000 water filled barrier, measuring 2150mm L x 900mm H x 500mm W. Made in Australia with a 5 year materials and labour warranty. The ideal safety barrier for pedestrian delineation, cordoning off no-go zones, drop offs, pits and as a traffic control solution. Also available in white. **Additional freight charges may apply - you may be contacted about freight cost for heavy, bulky or awkward items. Call us for details on 0800 865 292.**

Description

The Trafix 2000 Waterfilled Barrier is an innovative Australian designed and manufactured barrier that has been built for the toughest conditions. The strong UV-protected polyethylene gives added durability against the harsh Australian sun. Simple and lightweight to install when empty, each module weighs just 20kg before filling. After installation and once filled with water, each barrier weighs 327kg, providing a significantly stable and secure barrier made from material that is strength tested to Australian & New Zealand Standards.

Rounded corners make it safe and easy for workers to handle, and a simple interlocking pin and hole system is moulded into each barrier module, resulting in a one-piece unit with no loose pins. Built-in handles help with the interlocking process and carrying the barrier when empty.

The Trafix 2000 water filled barrier is made from eco-friendly recyclable polyethylene and is available in 2 metre long modules. It is ideal for use in pedestrian delineation applications such as this, as well as for cordoning off no-go zones, drop-offs and pits on work sites. Lights and signage can also be attached, transforming the barriers into a 24 hour traffic control product.

Features:

- 70mm filler, overflow and 50mm drain centrally located
- Material strength tested to AS/NZS 4766:2006
- UV20 Protection to ASTM D2565
- Recommended for carparks, work sites and pedestrian delineation
- Light bracket moulded on top of barrier
- Recyclable - Eco Friendly
- Strong and user friendly
- No loose pins

- Size: 2150mm(L) x 900mm(H) x 500mm(W)
- Weighs 20kg empty, 327kg full

New Zealand's Leading Supplier of Water Filled Barriers
