

PORTABOOM PB3000 Replacement 4m Arm

Product Images

Short Description

Replacement/spare parts - small door control panel for a PORTABOOM®.

Description

PORTABOOM® units, accessories and spare parts available at Jaybro.

The PORTABOOM® has changed the way we management traffic. Improving safety and cost efficiency,

replacing traditional stop/slow methods of traffic control.

The traffic controller operates the PORTABOOM® using a remote control. This creates a safe zone, eliminating the need for the controller to stand in the direct line of traffic.

PORTABOOM® provides the added protection of a physical barrier to secure the worksite.
